

Global Push for Peace in Ukraine

Beloved souls,

You are invited to take part in a global effort to steer world events in the direction of peace, not only in Ukraine, but all over the world.

The time has come for this dream to come true.

It may seem an implausible, far-fetched goal, but the alternative, ongoing wars that could soon spill into space and even trigger the final nuclear holocaust, is simply unthinkable and yet too plausible to ignore... if things continue as they are.

Hence the need, NOW, for all of us, humans, sharing his wondrous planet, unique and precious in her unfathomable diversity and resilience, to band together, put aside our differences and focus on the ONE THING that ought to unite us all: protecting this jewel of Life for our children and generations to come.

This not about preserving the current world order and extractive, abusive, imbalanced economic system. This is about believing in and cocreating a new reality where life—*all life*—is sacred, where we do unto others as we would have them do to us, where we act, think and feel us all as the magnificent human family that we are.

In such a mindset and heart-centered perspective, there no room for enmity, violence of any kind, and especially war, which is the ultimate form of malevolence towards other fellow family members.

Changing our Collective Story

But how do we begin to launch ourselves on the path to peace in a world that devotes over 1 trillion US dollars a year on ways to perfect more expedient means to kill each others, and actively do so through hot conflicts?

We start with the most violent, destructive and seemingly intractable conflict: the war of attrition between Ukraine and Russia that is reminiscent of the trench warfare of World War One, and then, when the end of hostilities is reached and peace negotiations are underway, as they will, we will shift our focus to the next most horrendous conflict zone, and so on until all armed conflicts are finally over, tensions are de-escalating, countries are demilitarizing, and we are truly welcoming the opportunity to learn to live in peace, from the bottom of our hearts to every single aspect of our rich tapestry of cultures and ethnicities.

Daydreaming? Nope! Peace-envisioning and new-reality-making.

We change the story we tell ourselves about who we are and how we behave toward each other and, eventually, the resulting new perceptions will cascade down into a new normality, resonate in every heart, and we will all march to a new drum beat and sing a new song of peace, unity and global renewal.

How do you achieve this in a world where everyone's attention is so hard to reach amidst the gluttonous offering of things to watch, read and listen to?

You bypass the usual sensory way to connect with minds and use the universal language of Love.

This is not a mere wispy dream. This is how the whole cosmos works. And believe it that we are all connected into it. Not a single living being isn't. We all thrive on the same Love juice that flows eternally from Source.

So when we attune our mind, heart and soul to the one vibration of Love that unites all, every mind, heart and soul feels it. And there, when One with All That Is, we can let Source do the talking and nudging so everyone, deep down, gets it. Peace is coming to mother Earth, starting with the hurting land of Ukraine, and then spreading to every other place where souls are hurting under the dark cloud of ignorance of our eternal Oneness through Source in us all.

So stand up for the Light of Love in all, arise from the ashes of a receding era and let your soul sing the crescendoing song of Love, so every heart of every awakening human stand still in the knowledge that we have always been and forever will be souls cocreating our common reality through the power of Source and the perpetual allowance of free will to BE all That We Are.

Practical suggestions

Wherever you are, whenever you feel like joining in, set aside 30 minutes or more of your time to meditate or, if you prefer, immerse yourself in prayerful abeyance, while enabling the soul that you are to rise and shine the glorious radiance of pure Love towards all those in a position of power to stand down armies, lock hearts in a race to make peace happen, and definitely turn the page of this stormy period of belligerence.

If you prefer to pick a moment in linear time that may be more propitious to add the voice of your soul to the chorus of peacemakers around the world, here is a suggested moment to join in meditation and prayer...

Every Sunday at noon, local time, until next April 20.

And if you wish to listen to the same musical background as others to elevate your experience to a high level of vibratory coherence, playing the following music should help get you there.

Divine Mystical Spiritual Choir Chant

When the time is ripe for the next stage in this global collective peacemaking process we are initiating, you will be invited in the same manner.
