

## May Peace Prevail on Earth and Within, Now and Forever

We all sense we are at a critical juncture in our collective evolutionary path on this planet. Much is at play right now and choices being made at this moment have effects that extend long into our future.

We are all more or less aware of the ongoing sufferings and deep traumas millions of our brothers and sisters are experiencing, whether in the roles of victim or tormentor. This is nothing new of course, but the ramifications into our collective destiny are portentous and cannot be easily dismissed. Hence, these current tribulations are of a special nature despite being sadly so common. Because it affects us all and it places a unique burden of responsibility upon us all to actually care about that matter.

We could expound on many aspects of the unique challenges we and our world face. Just think about the turmoil in the Middle East or about the uncertain future of a particular European country wedged between two empires vying for its control. Think also of the fast emerging AI threat and its growing many dislocating impacts on the lives of millions of working people. Think of course also about the unravelling of the Web of Life, pushed to the edge by unrelenting degradation, mostly for profiteering motives.

We do indeed live in a very keystone moment in our unfolding history. How things will turn out very much depends on how we expect or anticipate them to be, for energy always follow our attention and subconscious beliefs, as the powerful beings that we are, endowed with some of the awesome creative powers of Source Herself. Which is why it is so important we pay attention to what sort of things we focus on and how we perceive them.

Shall we cocreate a world of plenty where no human being will be left to suffer the pangs of famine, the horrors of wanton violence and the sheer lack of the basic necessities required to live a fulfilling existence? Or shall we all spiral down into a hell of our own creation?

When things are put like that into such a sharp contrast, it is fairly easy to make the sensible choice. But are we really ready and willing to open up to the best that this living planet and conscious universe have to offer us? One wonders when looking at where we generally spend our attention on.

Fascinated as we are by the endless distractions and conflicting views abounding in this powerfully enthralling illusion we live in, it is easy to lose sight of the following three essential facts: we are immortal beings of highly sentient energy

living a tantalizingly immersive physical experience; we came here to evolve, serve and love as best as we can; we are One with All That Is.

**If you wish to delve deep within your true immortal nature and experience this physical reality from that ethereal perspective, so as to better BE All That You ARE, you may like to use as a focussing tool the following video version of the recorded guidance for the recent [Global Equinox Meditation : Being the Rising Tide of Love](#).**

You may also wish to use this 'soul-tunement' experience at least once a week, every Sunday at noon local time, so as to help create a standing wave of Love moving around our planet and entraining every living soul in its wake.

Connecting with Source and reaching out energetically to all sentient beings on Earth, we can thus help raise the overall vibration of this world and so procure the best possible healing for all that ails humanity and all living beings in this plane of existence.

*In the ephemeral realm of duality, changes are ongoing, some of which deserve a portion of our attention so as to be aware of these fast-moving developments and thus help shepherd them towards a satisfactory direction, according to what Source may guide us to sense when giving them our attention, carefully envisioning and wishing for what will ultimately turn out to be.*

"The beauty of the American Constitution is that it enshrines the separation of powers in the Constitution and it gives you, the American people, the control. It's government of the people, for the People, by the people. And please ladies and gentlemen, never forget that it's people power that is going to make the difference here to hold these people to account... people who are committing egregious crimes against the American public and the rest of the world. But what we are talking about here is not only a constitutional breach, it's a crime against humanity. It's a flagrant deceit on the human race and it's time it was exposed."

**Craft retrieval photos disprove AARO UAP report: Pentagon Papers lawyer**  
[https://youtu.be/UVPs-2DfN\\_o](https://youtu.be/UVPs-2DfN_o)

#### Video Description

NewsNation's Ross Coulthart questions whether the Pentagon's newly released report on UAPs reflects the truth, saying it is part of a "cover-up" that unconstitutionally misleads the public and denies the existence of a covert retrieval program alleged by whistleblower David Grusch. Coulthart is joined by former Pentagon Papers attorney Daniel Sheehan, who says he was shown photos from the Project Blue Book archives of what he believes were non-human craft being recovered by the U.S. military while investigating UAPs under the Carter administration.

**"Timeline Technology Revealed: How Project Looking Glass and Stargates Shape Humanity's Fate"**

<https://youtu.be/nxbuURKh2eY?t=372>

The link is set to start passed 6 minutes into this June 2023 presentation by Frank Jacob entitled "The Two Timelines: Which Will We Choose?" in which he describes a device called the Looking Glass, found on an ET ship, which enables to see future events.

Here is an excerpt of the transcript: "I remember Richard Dolan telling us a story about how he'd been briefed by a CIA Insider who was present in 1977 when President Jimmy Carter was briefed about the existence of these crafts and these pilots. (...) So between 1947 and the early 50s there were a series of crashes that took place, not just one. And they started the whole back engineering process and in the end they had up to seven, I believe, UFOs and they also had captured extraterrestrial beings and they ended up being put into an area called Area 51 which we all know. And the looking glass has ended up in that as well in area an S4 Area 51 and it was all classified under the strictest levels of secrecy of course until they figured out who they were dealing with. What they really discovered in principle is that the ETS are not really truly ETs, technically speaking. They're us and it was us from the future — the captured aliens that they had found, they called them J-rods — and came from Zeta Reticuli which is what we are going to colonize in the future. That's their past and they traveled back 52 000 and 45 000 years respectively to exactly before this time before this event takes place for different reasons."

## **A Message from the Galactic Federation of Worlds on the Israel-Iran Conflict - April 15, 2024**

<https://exopolitics.org/a-message-from-the-galactic-federation-of-worlds-on-the-israel-iran-conflict/>

Excerpt : "What is highly significant is that prior to Iran's April 13 strike, Elena Danaan notified me of a message she received from Thor Han Eredyon, a High Commander with the Galactic Federation of Worlds. In his message, Thor Han shared information about the secret deal and how this related to an Earth Alliance that the Galactic Federation has been working with behind the scenes. Thor Han's message gives more details about the secret deal and how it relates to a wider struggle between the Earth Alliance and the Deep State over the future of the planet, as well as extraterrestrial disclosure.

What follows is Thor Han's message and my subsequent analysis.

THOR HAN April 13, 2024

On April 11, 2024, government officials and military leaders from several Earth Alliance member countries met in secret to discuss a plan of action against the Deep State. The U.S. White Hats were there, as well as Putin, some representatives from Iran, and from "secondary power" Islamic states that have recently joined the Alliance, such as Saudi Arabia and Egypt, among many others.

The Earth Alliance has been preparing to overthrow the Deep State for some time by buying back Islamist countries, such as Egypt, that were financially dependent on the Deep State's banking overlords. When these countries regained their independence from the Deep State, they joined the Earth Alliance and switched sides.

This is not just a war between two countries; there is a deep and complex silver lining. The Iran-Israel conflict is just the tip of the iceberg. The reality behind it is about a deal. The Earth Alliance is trading a list of things, including: the Deep State and its assets leaving Ukraine and giving it away. When diplomacy didn't work as expected, the second step was the scare tactics. However, the situation is more complex than that. Iran doesn't want to get into a war; it's just playing the threat to get the Deep State to back down on the terms of this multi-level deal.

If tragedy strikes, it will not be at the will of the Earth Alliance, but as a result of the resistance of the old paradigm. The dark institutions that have ruled this planet have lost their off-world support, and they would rather destroy everything in their fall than surrender. Therefore, deals have been worked out to avoid chaos and death.

These meetings and the decisions that have resulted from them have been made by the Earth humans in charge. We can only wisely advise and assist in critical situations, which we have done and will continue to do diligently, but the future of Earth is in the hands of the Earth's people. Stand strong with hope in your hearts, for this is the turning point for your freedom and your future. You are not alone."

"From the underlying unity found in teachings of eastern philosophies and spiritual paths throughout the world, to Carl Jung's collective unconscious, to modern quantum science demonstrating interconnectedness through the quantum field, the concept of a unified energy of which we are all a part reveals the ways in which we are all connected at the most fundamental level with everything that exists everywhere.

This knowledge is also experiential for those who dedicate their lives to spiritual practices that set aside the various clamoring voices all people carry within, voices of mind, emotions and body, allowing their consciousness to expand. In states of nirvana, such adepts touch the Infinite and rest in the experience of the Oneness of which we are all a part.

I count upon Oneness as the basic truth of our existence. Applying a practical understanding to how this oneness manifests and governs our physical reality through the collective consciousness of humanity is the next step to creating conscious shift in our world. This is a process by which we – humanity – as a collective are empowered to change our reality, if we can free ourselves from the mindspell cast by the powerful elite groups that currently control the flow of information through the media.

If this world is a quantum mirror to us for all that we hold in our individual and collective consciousness, with all the compartments we have in our psyches that contain things we hide even from ourselves, then could not the coming to light of such dreadful information be a spiritual process of the human collective facing its collective shadow? Could it not be a shocking, disturbing, but necessary step in the expansion of human awareness on our planet, at this particular time in our history? A time in which we bring ALL of who we are as a species into the light for

healing and integration as we move into the next great iteration of discovery about who we human beings truly are?"

"As he (Carlos Barrios) explains, when the right arm of the materialistic world is disappearing slowly but inexorably, then we are at the cusp of the era when peace begins and people live in harmony with Mother Earth. We are no longer in the world of the Fourth Sun, but we are not yet in the world of the Fifth Sun. This is the in-between time, the time of transition. As we pass through this transition, there is a colossal global convergence of environmental destruction, social chaos, war and ongoing earth changes.

... The Hopis say that we have entered another world, another consciousness — the Fifth World. They say that the entire world will experience purification, and only the people of the Way of Peace will survive to usher in the New Age of the Sixth World. We are in a great transition, the beginning of a new consciousness; some of us are already in the fourth dimension going toward the fifth. We are seeing into the future as well as the past, allowing us to become who we really are. It is our responsibility to pass this on, carrying a message that can lift the hearts of humanity."

### **Let's Speculate: UFO/UAP Technology**

<https://www.youtube.com/watch?v=CPOcEXmEDmc>

In the comments : "Bravo Amber and Mark for this stellar summary of lots of vital information that the general public ought to have access to. You cut through the chase directly into some of the most important matters. You do so in a way that skeptical people, who may have not yet look deep enough into it, can wrap their heads around this hard-to-accept topic. You obviously go much further into the disclosure process than any of the lame stream media ever went.

I hope you'll keep digging up such incontrovertible facts to help more people accept the obvious reality that ETs and time-travelling beings are real and that a vast shadow government has used their technologies, gathered and retro-engineered over the past 80 years, to further the interests of a small elite with, apparently, a quite nefarious agenda.

Imagine if for the past 50 years or so they had chosen instead to release for global use the exotic free energy technology they had all this time to prevent the massive release of CO2 from excessive fossil fuel use that now threatens to totally tip the climate balance into runaway global warming and extreme weather events. This argument has often been made and others could be made too, on numerous other issues such as for health rejuvenation with the so-called medbeds, if only we knew all they are still hiding from us, deep within black projects for purposes that have seemingly very little to do with the highest good of all.

Some like Michael Salla ([exopolitics.org](http://exopolitics.org)) have provided much corroborated evidence that a deep space faring breakaway civilization has arisen since the Roswell crash and starting even years before, partly using slave labor as the Nazi did in Germany up to the end of World War II. He and other truth seekers like Dan Willis ([thewebmatrix.net](http://thewebmatrix.net)) also established that their inhumane philosophy has taken root in the US following the infamous Operation Paperclip that brought top German scientists into the US fold to continue the development of the exotic technologies they had been able to access. This imported Nazi influence is largely what has spawned the Deep State and the hegemonic drive of the U.S. empire to dominate the whole planet.

All of it could have been avoided if president Eisenhower had been able to prevail over the then burgeoning Magic-12 group that, out of fear of what the USSR would do, felt they had no choice but to stay ahead, be always more powerful than other adversaries and thus denied the option provided by benevolent Nordic ETs to not develop nuclear weapons on a massive scale. Instead Eisenhower had to sign the Greda Treaty in 1954 with a self-serving group of Grey aliens, letting them abduct and return with their memory wiped out millions of people as part of their hybridization program, in exchange for technological help and direct assistance in deep underground bases.

Of course, when viewed from the bigger picture perspective of the evolutionary needs for intense stimulation of the billions of souls embodied on this planet, one can also make the case that going through all this convoluted process of digging out the truth about what humans can do when disconnected from their soul's highest perception of reality is part of the mettle-testing challenges our souls need to be prodded into shaping up to be all That Source can BE through us all.

Fred Burks has often alluded to this higher benign purpose behind the seemingly dark aspects of Life on Earth. Allowing Love to guide us in how we understand and feel out things is and will always remain the only balanced Way ahead. Certainly never hatred and fear.

So, in conclusion, let's love "them" all till everything hidden is fully exposed for all to see and let's unconditionally forgive the souls who brought us to the edge of the abyss where we are now, for even though their human personage certainly didn't know what they were doing, their soul had chosen to make the huge karmic sacrifice they did for the highest good of all. And for that we owe them a huge debt of gratitude."

### **In Japan, Tens of Thousands Protest WHO's 'Supranational Grab Over Global Health' - 04/16/24**

<https://childrenshealthdefense.org/defender/japan-protest-who-supranational-grab-global-health/>

(...) As a result of growing global opposition, Lindley said negotiations over the WHO's proposals "are becoming more contentious, which is also encouraging." "The majority of people once informed are against both agreements as they begin to realize that this is a supranational grab over global health by the WHO," she said.

(...) "By mobilizing across the world, in solidarity, we are more effective at sending a clear message to the WHO's oligarchy," Mohamed said. Critics allege the proposed "pandemic accord" — or treaty — and the proposed IHR amendments of 2023 would give the WHO sweeping new powers over national governments and public health authorities, particularly in the event of a new pandemic, and would help establish a global regime of "digital health passports." These proposals, currently under negotiation by WHO member states, are set to be voted on at the WHO's 77th World Health Assembly in Geneva, Switzerland, May 27-June 1.

## **The WHO Pandemic Treaty**

<https://leslynlewismp.ca/2024/01/17/the-who-pandemic-treaty/>

Many people don't know that the World Health Organization has been working on a legally binding international treaty designed to prepare the world for the next pandemic. There has been very little media coverage and public discussion around this monumental treaty which, once ratified, would direct the public health decisions and responses of all signatory countries. It's vital that Canadians are aware of these global negotiations and the potential far-reaching implications for our own domestic health care responses in the future.

## **Seeking The Truth**

[https://www.earthrainbownetwork.com/FocusArchives/pdf/Seeking\\_The\\_Truth.pdf](https://www.earthrainbownetwork.com/FocusArchives/pdf/Seeking_The_Truth.pdf)

Excerpt: The IDF was given stand down orders – both the army and the Air Force – seven hours to stand down while those attacks took place. Under Netanyahu's alleged stand down order, the IDF remained conspicuously absent for many critical hours, and it appears that Israel knowingly allowed "wire cutting terrorists" (reminiscent of the 9/11 terrorist boxcutters hijacking four commercial jetliners) in bulldozers to cross through all the world's most heavily fortified border barriers in 14 different places to launch a massive invasion inside Israel. An Israeli born prominent New York rabbi, after conferring with his Israeli inside intel sources, also concluded that the October 7th invasion had to be "an inside job."

(...) Evidence is now emerging that up to half the Israelis killed were combatants; that Israeli forces were responsible for some of their own civilian deaths; and that Tel Aviv disseminated false ' Hamas atrocities ' stories to justify its devastating air assault on Palestinian civilians in Gaza.
