As the propaganda media's interest in the ongoing ethnic and genocidal cleansing of Gaza wanes, and as the brutality there reaches ever new heights, as in every other war of the last hundred years - see [As Israel steps up war in Gaza's south, battle for survival becomes more desperate](#) - and while the Western public becomes less interested, during the holiday season, in being exposed to the raw emotions generated by this "apocalyptic humanitarian crisis", as described by a senior UN official - see [Situation in Gaza is 'apocalyptic', UN human rights chief tells FRANCE 24](#) - we recently learned in [How Israel uses an AI genocide program to obliterate Gaza](#) that artificial intelligence plays a central role in the choice of targets to bomb in Gaza.

This choice is made according to selection criteria so broad, it is explained, that enormous "collateral damage" among civilians is assured, a deliberate choice by Benjamin Netanyahu's extremist government, with the aim of eventually forcing the Palestinian population into exile in Egypt and elsewhere in the world, and thus eliminating the "Palestinian problem" standing in the way of the realization of the dream of a Greater Israel — see [Netanyahu Shows Map of 'New Middle East'—Without Palestine—to UN General Assembly](#) — whose only legal citizens will be Jews. This bears a striking resemblance to the Nazi dream of Aryan racial purity, which led to the extermination of the Jews in Europe during the Second World War.

All this is, of course, orchestrated and supported by the U.S. government, under the sway of the Deep State, as are all Western countries directly or indirectly supporting the U.S. Neocons' plan, part of a vast project aimed at preventing the awakening of human consciousness, humanity's vibratory upliftment and the transition of this world towards a new reality in tune with an infinitely more vast and ancient Plan, designed to awaken the consciousness of the One at the heart of the myriad intelligent beings in this universe.

Well, well, well! Guess what? Their Machiavellian plan is producing precisely the opposite of the desired effect. According to several sources linked to the advanced civilizations charged with protecting and facilitating our evolution, the collective level of consciousness is rising rapidly - see [STAR NATION NEWS Ep 07 ~ Dec 4 2023](#) - and the conditions for our spiritual liberation are being met. For more follow <https://twitter.com/MichaelSalla>. Of course, this doesn't appear in broad daylight, and you have to be awake enough and in tune with the energies of a very high vibratory frequency to feel it. But it's coming. Definitely.

However, we all have a key role to play in keeping the train of our Liberation on track. One of the pernicious effects of mass violence anywhere in the world is the contamination of the timeline of a radiant future that the Universal Plan intends for us. After [expressing in our hearts](#) our outright refusal to the continued massacre of civilians in Gaza, which has led to many prominent voices denouncing it, it's up to us to continue in the same vein by contributing in every possible way to the collective energy of Love that awakened humans emit from every pore of their being, a quantum luminous energy that our science, still in its infancy, calls biophotons - see [Biophotons: The Light in Our Cells](#).

The path to a brighter future therefore lies in our conscious and deliberate contribution to this positive global energy of Love, expressed through positive and luminous thoughts, the antithesis of all forms of violence; words and speech imbued with gentleness and goodness; and acts of kindness towards our fellow

man and ourselves. The humblest choices and gestures, made out of Love and for the Light, have infinitely greater and more powerful positive repercussions than anything that doesn't come from them. *Let's never forget that.*

"The largest, most comprehensive global Communist power grab ever seen is occurring as we speak, and most people have no idea that it is even happening. This is not hyperbole or exaggeration. And every man, woman and child on this planet's lives will be irrevocably changed for the worse on May 24, 2024 if it is not stopped."

There is a 9 min 32 sec video worth watching there.
